1. Materiale conform standardelor europene armonizate (hEN) și Aprobării Europene pentru Materiale (EAM) conform Directivei 2014/68/UE												
Utilizarea materialelor conform Directivei 2014/68/UE este condiționată de publicarea standardelor europene armonizate sau de calificarea printr-o aprobare europeana pentru materiale ori prin evaluarea specifică a materialului. Prin aceasta se demonstrează fiabilitatea în fabricație pentru grade de materiale echivalente conform altor standarde (de exemplu, BS, AFNÜR, ASME). Cerințele și limitele codului aplicabil, respectiv ale PED, trebuie respectate pentru utilizarea gradelor de materiale enumerate în coloanele 2 până la 4.
